

Capital Improvements Subsidy Guidelines

This program is designed to promote and support alternative commute modes. There are six Capital Improvement subsidies of up to \$2,500 each available per year for property management companies that lease to SNTMA member companies.

1. Awarding of this funding is conditional based upon a professional written estimate of the work to be done.
2. As a condition of funding the property management company must match the Capital Improvements subsidy received from the SNTMA.
3. The Capital Improvements Subsidy can be used for any property improvements that promote or support alternative commute modes.
4. Qualified applicants will be selected based upon a review of the application.
(Please note - due to the limited number of funds, should the number of applicants exceed the available funds, a drawing will be held to select the subsidy recipients. The drawing will include only those applications deemed eligible by program guidelines and the SNTMA.)

To apply, submit a professional estimate and the form below to Stephanie@sntma.org or 916.646.0463
